CONTENTS

Articles

Serum immunoglobulin levels in hepatitis-B antigen-positive and hepatitis-B antigen-negative acute hepatitis
I. Bersohn, T. Ipp, G. M. Macnab, C. M. Stevenson, G. B. Miller and M. C. Kew 3

Vitamin B_{12} and its binding proteins in the serum of some wild game species
R. Green, M. E. Keep, N. Colman and J. Metz 9

Ventilatory response of healthy Nigerians and Europeans to carbon dioxide
D. Femi-Pearse, A. O. Afonja, O. O. Elegbeleye and O. Ogundipe .. 15

Ventilatory response to carbon dioxide in Nigerian asthmatics before and after aerosol salbutamol inhalation
O. O. Elegbeleye, A. O. Afonja and D. Femi-Pearse 21

Some characteristics of a cell line derived from a fast growing rat hepatoma
C. F. Albrecht, N. v. d. W. Liebenberg, L. D. Nourse and Johanna C. Seegers 35

The origin of the lamina alaris of the human occipital process
Daleen M. Hendriks and M. J. Toerien 43

Aspects of the absorption of fructose in Rousettus aegyptiacus
D. J. Keegan 49

On the interference of dithiothreitol with the Lowry protein assay
J. J. A. Heffron 57

The topology of red cell membrane lipids in hereditary spherocytosis
S. S. Zail and A. K. van den Hoek 67

Identification of some substances secreted by the bovine pineal body and their antigonadotrophic activity in an in vitro system
P. B. Gradwell, E. J. Candy and R. B. Symington 73

The effect of inclusion of cerebrospinal fluid in the incubation medium on the in vitro secretion of luteinizing hormone from the bovine adenohypophysis
P. B. Gradwell and R. B. Symington 83

Research in depth
A. J. Brink 101

The mechanism of the inhibition of iron absorption by tea
P. B. Disler, S. R. Lynch, J. D. Torrance, M. H. Sayers, T. H. Bothwell and R. W. Charlton 109

Effect on coronary flow of atrial contraction
J. V. O. Reid and C. I. Bhagat 117

Histochemically demonstrable changes in amylase activity in submaxillary salivary glands of puberal male mice following castration
M. Shear, F. Barbakow and Glenys King 133

Stature and secular trend among Southern African Negroes and San (Bushmen)
Phillip V. Tobias 145

Characteristics of an ovine herpesvirus associated with pulmonary adenomatosis (jaagsiekte) in sheep
Ethel-Michele de Villiers, H. J. Els and D. W. Verwoerd.. 165

Cranial neural crest extirpation and cyclopian development
M. J. Toerien 177

Ascorbate status of patients with porphyria cutanea tarda symptomatica and its effect on porphyrin metabolism
V. A. Percy, D. Naidoo, S. M. Joubert and R. J. Pegoraro 185

Synthesis of certain puromycin analogues and their use in studying the peptidyl synthetase enzyme of E. Coli and rat liver ribosomes
M. Ariatti and A. O. Hawtrey 197

An investigation into the hepatic cytochrome P-450 catalysed metabolism of the anaesthetic fluroxene (2,2,2-trifluoroethyl vinyl ether)
Julia A. Marsh, Kathryn M. Ivanetich, Jean J. Bradshaw, Gaisford G. Harrison, Bruce L. Webber and Laurence S. Kaminsky.. 205
